Dear Mr Tobin

Re: e.restore 3: Request for letter of support

The committee of Northbridge Progress Association has asked me to respond on its behalf to your letter of January 22 2008.

The committee has been a strong supporter of the e.restore program, which is consistent with the Association's basic aim: "To preserve or enhance the amenity and environment of Northbridge".

We appreciate the efforts that Council has made to improve, restore and reduce its impact on the environment. We note that the e.restore levy and government grants have been used to save water, rehabilitate and restore local bushland and creeks, reduce greenhouse gas emissions and improve the environmental standards of local businesses. We believe that these activities are responsive to community concern for the environment.

The Association therefore supports Council's proposal to increase the e.restore levy from its current level of \$2 million per year to \$4.25 million per year commencing in July 2008.

Yours sincerely,

Malcolm Lye
Secretary
